

**Spruce Street Extension/Upgrade E. Dowling Road to E. 68th Avenue**

## Why is Spruce Street being surveyed?

DOWL HKM is the Municipality of Anchorage's consultant performing survey, geotechnical, public involvement and design work for the Spruce Street Extension/Upgrade from E. Dowling Road to E. 68th Street. Surveying the corridor is one of the first steps. Public involvement activities are scheduled to occur in fall 2009-spring 2010.

DOWL HKM will be performing field survey work in your neighborhood for the next few months. All of our staff have employee identification cards and wear orange vests.

Please contact Alison Lohrke  
at 562-2000

if you have comments or questions  
about the surveyors or if you wish to  
receive additional project  
information.
